

The News.

The rebel General Kirby Smith is determined to die hard. He makes a frantic appeal to the soldiers under his command to stand by their flag until foreign aid arrives. Kirby has been charged by his brother traitors of driving a brick cotton trade which has injured the private benefit of the said Smith, and he hates to exchange it for the hemp business. Perhaps he intends to hold out until Jeff. Davis gets across the Mississippi, and help the arch traitor out of the country.

The rebels imprisoned on Johnson's Island have become tired of imprisonment, and lost all faith in their ability to carry on the war longer. Out of the twenty-eight hundred confined there, all but about thirty-five have asked permission to take the amnesty oath.

Gold is a little firmer, closing at 1.32 1/2.

Fond du Lac.

After Janesville, the next smartest interior town in Wisconsin is Fond du Lac. We recently paid that thriving city a hasty visit and was much impressed with the improvements that have been made there in the last five years. The location of the town is a good one in a business point of view, although the whole city needs raising up as our Chicago neighbors raise their huge blocks. The first thing that (literally) meets the eye of a stranger is the great abundance of saw dust. The citizens pave their streets, their sidewalks, their garden-walks, with it—much their fruit trees with it and on a windy day the air is filled with it, and when you complain of the dust they facetiously reply "it is all in your eye," which is too true for comfort.

The chief productions of Fond du Lac are men, lumber and artesian wells. It possesses about as many liberal, whole-souled, active business men as is admissible for one town under the constitution, and they are justly proud of the present position and future prospects of the Fountain city. But the best "bolt," as Artemus Ward would say, of the Fond du Lacers, is lumber. Fifteen mills of the best class are located here, which turn out annually a number of hundreds of millions of feet that the market will warrant in cutting, besides shingles enough to cover a State, laid four inches to the weather. One of the best shingle machines in the world was invented here, called the Valentine mill, which cuts from fifty to sixty thousand daily of the very best quality. These saw mills usually run from the first of May until the first of November, and give employment to a large number of hands.

The people of this place are very anxious that it shall be made the initial point of the great railroad that is to be to Lake Superior, and for the construction of which a liberal grant of land has already been obtained. The project miscarried in our Legislature last winter, but the Fond du Lacers intend to be around some next winter when the matter is finally disposed of. Should the legislature make this the starting point, this would become the largest and most flourishing city in the State except Milwaukee. The last named emporium seems to be utterly oblivious of the vast amount of trade she is daily losing by not constructing an air line road to Fond du Lac, but with her new Music Hall and an abundant supply of lager beer, her Teutonic airs seem satisfied to sip and sing and sleep on, while the tide of business flows away in another direction.

The damage to the South Side Railroad is immense, much of it being the result of the orders of Extra Billy Smith. Of the so called High Bridge, twelve miles from Burkesville, a structure 128 feet in height and 2,450 feet in length, 450 feet have been burned. The materials to repair it will have to be brought from Baltimore. A bridge at Farmville, eighteen miles from the Junction, has 200 feet, and another a mile or two further on 150 feet destroyed. The bridge across the James, five miles from Lynchburg, 672 feet long, is entirely destroyed, as are also several smaller bridges. The whole making an aggregate of 1,922 feet.

JEFF. DAVIS' WHEREABOUTS.—The Chattanooga Gazette of the 7th gives particulars of Jeff. Davis' movements in Georgia, and appeals to the loyal men of North Georgia, to get the utmost to hunt him down. A Chattanooga dispatch of the 9th says, "Jefferson Davis was at Pamlico, Hancock county, Ga., last Friday night. Gen. Wilson has printed handbills announcing the reward for his capture and scattered them through the country."

ABOLITIONISTS FOR CLEMENCY.—It is a singular fact that the leading abolitionists who were most violent in their hatred of Southern institutions, are now foremost in urging clemency to the conquered rebels. There are no more earnest advocates of forbearance than Horace Greeley, Wendell Phillips and Gerrit Smith.

The cavalry of the Army of the Potomac is to be disbanded. Sheridan's cavalry, and also the cavalry forces of the West are to be reorganized and consolidated, and the entire body numbering 100,000 men, all under the command of Sheridan, are to be distributed, in divisions, through the rebel States. A portion will be stationed West of the Mississippi.

The Charleston Race Course, where so many Union prisoners are buried, was recently dedicated as a cemetery, the graves having previously been mounded, and a substantial fence erected.

State News.

The Racine Journal says Mayor Hart is diligently laboring to settle the indebtedness of that city. James Callahan while moving some cars near the railroad depot, slipped and fell, a wheel passing over and dreadfully crushing his right thigh.—The Columbus Transcript says a good deal of improvement is going on there this spring, and claims that it is one of the most beautiful villages in the State.—The Stoughton Reporter says a Pennsylvania, visiting that place on business, thought he tasted "it" so strongly in a spring of water, on land owned by Chauncey Johnson, that he offered \$1,000 for an acre including the spring.—The La Crosse Republican says a German named August Hoch, working in a saw mill near Tomah, fell backwards, a short time ago, upon a large rotary saw in motion. One leg was cut off near the hip, an arm split in two from the elbow to his hand. He lived about three hours.—A gay couple were arrested in La Crosse, Tuesday morning, on suspicion of vagrancy, drunkenness and general demoralization. One of them proved to be a woman dressed in male attire, who drank whisky, smoked and seemed to be perfectly at home in pants. They hailed respectively from Chicago and New Lisbon and are in jail.—The Wausau Argus says: "Wheat in this country is looking finely. We have never seen winter wheat look better. The cool weather and abundant rain, are, we trust, giving the grain such a start as will insure it against damage by future unfavorable weather."—The Oconto Lumberman thinks the water there gives strong evidence of the existence of oil, and urges the organization of companies to bore. A movement is on foot to dredge out the mouth of the Oconto river.

FROM TEXAS.—Galveston advises to the 25th of April, state that the people of Houston and Springfield had held meetings and determined to continue, though they had heard of the capitulation of Lee, to repel invasion and sustain Jeff. Davis. Gen. Howes, who commanded Galveston, had resigned and was replaced by Col. Smith. Magruder was at Galveston, where he reviewed the troops. A Federal attack on the coast of Texas was momentarily expected.

Much excitement has been created in Washington by the return to that city of former residents who have been actively engaged in the rebellion. The city council had an animated debate upon the topic, and a mass meeting of citizens resolved that men who had endeavored to destroy the Union could have no homes at its capital.

While negotiations were in progress between General Sherman and Johnston, fully twenty thousand of Johnston's army deserted and returned to their homes. Gen. Hardee acknowledges that he two years since conceded the failure of the rebellion. Several rebel officers have recently been murdered by their men in North Carolina.

GEN. RHETT, captured by our troops in North Carolina, has taken the oath at Fort Delaware. He is a son of the "original secessionist," Robert Barnwell Rhett, and a brother of the editor of the Charleston Mercury. Out of seven hundred rebel officers in the Fort, all but thirteen took the oath.

LARGE numbers of rebels are robbing farms and stopping travelers in Kansas and Iowa, and it is asserted many of these are seeking the same sort of employment in Southern Illinois along the Ohio and Mississippi and Central railroads. They have emigrated chiefly from Missouri.

JOHN P. BARTLETT, of Providence, R. I., the well known author of the "Dictionary of Americanisms," is preparing a catalogue of the various books and pamphlets relating to the rebellion, and requests authors of sermons, speeches, biographical works, &c., to assist him in setting down their full titles.

The financial affairs of the Government are in a most satisfactory condition. Funds amply sufficient to pay the army will, in a few weeks, be obtained. The generous support rendered to the national loans by the people contributes largely to this auspicious exhibit.

The proprietors of the forthcoming new paper at Chicago are endeavoring to procure C. A. Dana, formerly of the N. Y. Tribune, as chief editor. He is now Assistant Secretary of War, on a salary of \$4,000 a year.

Gov. PIERCE, of Virginia, is about to issue a proclamation declaring vacant the civil offices of the State and advising a new election. This is the first legitimate step towards the organization of Virginia.

BOOTH'S BODY.—The latest wild story as to the disposition of Booth's body, by Colonel Baker and his coadjutors, is that the corpse was placed in quick lime, and in that manner speedily destroyed.

Among the rebels who have come into our lines at Chattanooga and given themselves up, is Clarence Prentice, the erring son of the editor of the Louisville Journal.

HARVEY FARGO, formerly of Lancaster, Grant county, was murdered recently at Eau Claire county, by the Indians, and his body robbed.

The representatives of the Christian Commission, who paid their respects to Gen. Lee, have been dismissed.

NORTH CAROLINA.

Important Proclamation by Governor Vance.—The Restoration of Law and Order.

RALEIGH, N. C., May 6.
The Raleigh Progress publishes the following document:

STATE OF NORTH CAROLINA, EXECUTIVE DEPT.,
GREENSBORO, April 29, 1865.

BY THE GOVERNOR OF NORTH CAROLINA—A PROCLAMATION.
WHEREAS, By the recent surrender of the principal armies of the Confederate States, further resistance to the forces of the United States has become vain, and would result in a useless waste of blood; and whereas, all the natural disorders attendant upon the disbanding of large armies are upon us, and the country is filled with numerous bands of citizens and soldiers to do violence to persons and property:

Now, therefore, I, Zebulon B. Vance, Governor of the State of North Carolina, in the sincere hope of averting some of the many evils which threaten us, do issue this my proclamation, commanding all such persons to abstain from any and all acts of lawlessness, to avoid assembling together in crowds in all towns and cities, or doing anything whatever calculated to cause excitement; and earnestly appealing to all good citizens who are now at home to remain there, and to all soldiers of this State to retire quietly to their homes and exert themselves in preserving order. Should it become necessary for the protection of citizens, I also appeal to the good and true soldiers of North Carolina whether they have been surrendered and paroled or otherwise, to unite themselves together in sufficient numbers in the various counties of the State, under the superintendence of the civil magistrates thereof, to arrest or slay any bodies of lawless and unauthorized men who may be committing depredations upon the persons or property of peaceable citizens, assuring them that it will be no violation of their parole to do so. And I would assure my fellow-citizens generally, that, under God, I will do all that may be in my power to settle the government of the State, to restore the civil authority in her borders, and to further the great ends of peace, domestic tranquility, and the general welfare of the people. Without their aid I am powerless to do anything.

Z. B. VANCE.

By the Governor: A. M. McPHERSON, Private Secretary.

The Progress says of this: "The late Governor continues to proclaim, and sends greeting to his loving subjects from Greensboro, the most important paper of modern times. The paper before us must be genuine, for it bears not only the name of the fugitive Governor, but has appended the official signature of his private Secretary, the patriot who has been so solicitous in the recent past to save the government of the State, and to have the Standard and Progress suspended, and their editors hung. This plant has even sneaked around among private families, and in the social circle around the family hearthstone, when common decency should have forbidden the introduction of personalities or invective, abused and vilified the editor of this paper and others whom he chose to proclaim traitors to the Davis and Vance tyrannies. And now he and his master propose to restore quiet to a land their crimson hands have helped deluge with blood, and prosperity to a people they have labored day and night to beggar and destroy."

We appeal to Andrew Johnson, President of the United States, a man whose whole public career has shown him to be a friend and champion of the honest masses, to the people of his native State of North Carolina, and to the people of the United States, to denounce the traitors who have allowed to return to Raleigh and resume the functions of his office. And we appeal to the military authorities to distribute the Union troops, and so govern the affairs of the State as to give our people protection, not only from bushwhackers, marauders and other evil-disposed persons, but also to save us from the officious insolence and petty tyranny of those State officers who have done so much to bring desolation and ruin to our once happy and peaceful homes. After doing all that he could by fraud, tyranny and corruption to destroy the Federal Government and beggar North Carolina, the traitor Vance would sneak back into a position he has disgraced. But, thank God, the President of the United States and his counselors and advisers know who and what he is, and we think we can assure the good and loyal people of the State that no such degradation awaits them."

The March of the Potomac Army Through Richmond.

The Richmond Whig of the 8th, has the following account of portions of Grant's army passing through that city:

"The grand military spectacle presented to the citizens of this city on Saturday, by the troops composing the 2d and 6th corps, was as grand as any, perhaps, that has ever passed through our streets. On this occasion there was presented a view of the grand army against which the disciplined men of Gen. Lee's army have been contending so obstinately for four years. In point of numbers the grand review of Gen. Weitzel's corps fell far behind. The line of march occupied six hours and twenty-five minutes in passing our office, at which point we viewed the pageant. The force was from 45,000 to 50,000 strong."

"The march of the troops past the Libby prison, which was included in the route in order to gratify the soldiers, was marked alternately by cheers and groans from those who, from time to time in the progress of the march, were so unfortunate as to be inmates of its inhospitable walls. Whether designed or not, the program of the route took the line past Gen. Lee's residence, in Franklin street, and those of the soldiers who were aware of the probable proximity of that distinguished chief of the Confederate forces, cheered lustily as the residence was approached and passed. It is said that Gen. Lee stood at the closed blinds of one of the windows and viewed the pageant for a few minutes. We understand that the route of the procession was selected and led through the streets that would best afford the troops an opportunity of viewing the city before which they had been fighting four years for its possession, and the soldiers seemed to enjoy the spectacle with pleasure, though without any outward demonstration whatever."

In San Francisco there is a Chinese doctor named Li-Po-Tai, who makes an income of \$20,000 per year.

ANGLO-REBEL HOODWINKING.

Lee's Defeat Explained Away.

The Index, the London organ of the rebels, thus attempts to soften the effect of the fall of Richmond on its readers. What it said after it heard of Lee's surrender we do not yet know: So far, then, from the hopes of the Southern people, it will reinspire confidence and arouse against the activity of the widely scattered population, which complained, not altogether without the semblance of cause, of being sacrificed to a mistaken point of honor. We use the term evacuation advisedly, for it was a deliberate act, carefully prepared, and carried out with consummate skill. Even in the pyrotechnic light of Federal accounts, the fact shines out clear and distinct that the assailants, repeatedly repulsed with heavy loss, became aware of the empty prize within their grasp only by the disappearance of the thin rear guard which had held them at bay.

Overmatched as the Confederacy is in numbers and resources, it is only by mobilizing its armies, and giving them, so to speak, ubiquity, that it can hope in some degree to equalize the contest; and in the happy combination of audacity and prudence which this mode of warfare requires, Gen. Lee has proved himself to have no living superior. He has a military chest of about \$3,000,000 in gold, furnished by the Richmond bank, and with this he can assuredly do in a loyal country what even an enemy boasts of having done, and, at all events, the subsistence of his army must be less difficult than in a beleaguered city. Nor need we have any uneasiness about his arsenals and stores. The Confederate armies are at present better equipped than during the first three years of the war, and with the exception of heavy artillery, which is now no longer needed, have always looked to the enemy's well-provided trains as their chief source of supplies.

When the curtain again rises it will be upon that second stage of war which we have of late constantly foreboded in these columns—a stage upon which we look hopefully because it gives the Confederates for the first time the full benefit of their vast territory, which have heretofore served the enemy more than themselves; and it inaugurates tactics of all others best adapted to their genius, and least to that of their adversary. A loss of prestige in the eyes of Europe there unquestionably is in entering on this second stage of the war, but that prestige has been gained, and has already been too dearly bought.

Heretofore the war has been conducted as between two great rival powers, appealing on equal terms to the arbitration of arms in some quarrel for a frontier right; but now, after an experience so unambiguous that no human foresight could have anticipated it, it is more than questionable whether it would not have been wiser if this second stage had been made the first—if the formation of a permanent constitution and the cumbersome machinery of a firmly-seated government had been postponed until the return of peace, and if the war had been waged more in accordance with the necessities of the country than with the formalities of a rank among nations which has not been recognized. We trust that the lessons of this experience will be brought into practice, and agility replace the tilt of strength which has failed.

Let the archives be deposited in some safe and secret place, and let the President and his Cabinet fix their seat of government at Gen. Lee's headquarters. We are not so presumptuous as to deny that further misfortune may befall this brave and devoted people. There may yet be behind this second stage another, and yet another. There may be a stage even beyond these, when the pregnant epigram of the Times, now premature, may become true; that if a war, the struggle is drawing to close; if a revolution, it has just begun. But while we gaze with our Confederate friends into the darkest vistas of a future of reverses, we look cheerfully upon their immediate prospects with a hope which has not its reason in our earnest wishes alone.

THE NEWS IN BRUSSELS.—GRAND POPULAR DEMONSTRATION.—A meeting was held at Brussels on the evening of the 22d, followed by a great and popular demonstration in honor of the late federal victories. An immense procession repaired to the residence of the minister of the United States. His excellency received the chairman and principal members of the meeting and made a speech. A congratulatory serenade was also given.

This year's emigration from Great Britain and Ireland bids fair to be very large. The Cork Constitution says there are 1,500 persons awaiting transportation at Queenstown, there being no room for them on the overcrowded vessels which had just sailed. The iron workers of Wales are emigrating in large numbers to the United States, Australia, and even to Patagonia, where the Chileans have founded a colony.

An attempt was recently made to replace the portraits of ex-Governor Toucey and Seymour, who notoriously disloyal men, in the frames in the State Capitol, from which they were some time since removed by order of the Connecticut Legislature. In consequence of what the Hartford Times calls an excitement, the pictures were speedily taken down and again consigned to obscurity.

The grain statistics of Chicago for the first four months of the current year shows a large falling off in the receipts of flour and wheat, as compared with last year. The figures compare thus:

	1865.	1864.
Flour, bbls.	1,069,073	2,557,712
Wheat, bushels	1,254,280	2,112,262

THE AMERICAN BOARD of foreign Missions has just lost two valuable young missionaries.—Mr. C. H. Lloyd, who died at Umeri, South Africa, on the 10th of February, aged 31, and Wm. Wiltberger Chapin, who died at Ahmednuggur, India, on the 22d of March, aged 23.

A LARGE amount of Continental money, almost ninety years old, has been found at Charleston. It is better now, as old as it is, than the confederate trash.

CITY AND COUNTY.

SALE OF HOUSEHOLD FURNITURE.—Mr. John Kimball has an extensive sale of household furniture, to-morrow, at 1 o'clock, near the Corn Exchange.

ATTENTION SONS OF TEMPERANCE.—Turn out to-night as a new programme is to be framed. It is hoped that all will have a hand in the good work. Remember the hour, 7 1/2 o'clock. COMMITTEE.

T. BURROCK will sell at his sales rooms, next door to Kierland & Leech's, on Saturday May 13th at 11 o'clock, a large and fine assortment of parlor furniture, bureau, mattresses, crockery, &c., the property of a gentleman going to Salt Lake City.

A GOOD THING.—The entertainment at Lappin's Hall is really an excellent thing. The attendance last evening was not large, but those who were present were highly pleased, and we shall be much surprised if large numbers of our citizens do not visit these exhibitions while they remain here.

SUDDEN DEATH.—We learn that a young lady by the name of Mary Ann Farmer, aged about 25, died suddenly on Thursday morning of heart disease, at the residence of Mr. J. H. Leavenworth in La Prairie, with whom she resided as an adopted daughter. She appeared to be in her usual good health up to the moment when she expired, about ten o'clock. Her funeral will take place from the Methodist Church at Emerald Grove at 10 1/2 o'clock, on Sunday morning next.

BEAUTIFUL ENGRAVINGS.—We have been shown to-day a splendid line of fine steel engravings, which are to be offered to our citizens by Messrs. Richards & Hartwell, who are now engaged in the work of engraving. There are a number of pictures which are worthy of special admiration. Among them are "Home on a Furlough," "Christ Blessing Little Children," "Abraham Lincoln," two portraits, one representing him while signing the emancipation proclamation. The pictures are from the hands of Samuel and John Sartain of Philadelphia, and Walters of New York. The publishers are Bradley & Co., Philadelphia, and Rice & Allen, Kalamazoo, Mich.

BADGER STATE AGRICULTURAL WORKS.—Such is the title of a corporation to which the Legislature at their last session granted a charter. The incorporators are gentlemen residing in this city, and they have already commenced the work of putting up a suitable building in which to carry on the proposed business of manufacturing agricultural implements. The structure, which is to be located on Main street, near the dam, will be 40 feet wide by 75 feet long and three stories high. The power for driving the machinery is water, and will be ample for all purposes required.

We understand that our enterprising fellow citizen, R. J. Richardson, Esq., who is one of the incorporators, will continue the manufacture of his excellent grain drills in this establishment, and that in all probability other agricultural implements will also be made here.

With all our present activity and enterprise as a community, and the reputation we justly enjoy for it, the location of such establishments in our midst will bring us added wealth and importance. We are surrounded by an agricultural region unsurpassed by anything that lies out of doors, and with the added influence of manufactures which by right belong to us, we should take a rank as a city, unequalled by any in the State. May the success of the "Badger State Agricultural Works" be equal to the most sanguine expectations of the gentlemen whose enterprise has called the company into existence.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date of August 15th, 1894, and are payable thirty years from that time, in currency, or are convertible at the option of the holder into U. S. 5-20 Six per cent.

Gold-Bearing Bonds

These bonds are now worth a premium of nine per cent., including gold interest from Nov., which makes the actual profit on the 7-30 loan, at current rates, including interest, about ten per cent. per annum, beside its exemption from State and municipal taxation, which adds from one, to three per cent. more, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a \$50 note.	
Two cents	\$100
Ten	\$500
20	\$1000
50	\$2500

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than \$200,000,000 remain unsold, which will probably be disposed of within the next 60 or 90 days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Banks throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE, Subscription Agent, Philadelphia.

Subscriptions will be received by the

FIRST NATIONAL BANK of Janesville.

ROCK COUNTY NATIONAL BANK of Janesville.

THE NINTH NATIONAL BANK OF THE CITY OF NEW YORK.

CAPITAL, \$1,000,000, PAID IN.

ATWOOD'S PATENT DRILLING MACHINE.

HYDRAULIC SAND PUMP.

PRACTICAL TESTS having fully demonstrated the superiority of this machine over all others for the purpose of sinking Oil Wells, the undersigned is now prepared to receive orders for the same.

This machinery comprises everything requisite for the boring of oil wells, excepting the STEAM ENGINE AND CAST IRON DRIVING PIPE, (but will be furnished, if desired, at a reasonable price), and dispenses with the use of the Derrick Rope, Bull wheel and other cumbersome and expensive fixtures now in use, and is so arranged, being constructed on wheels and portable, that it can be easily moved for the purpose of sinking wells in different localities. Side and end views of the machine are shown on the accompanying card.

THE DETRITUS is removed from the well by the Patent Hydraulic process, and does not require the removal of the drill from the hole. This process not only removes all the detritus in from 5 to 10 minutes, but likewise effectually cleans out and opens all the small oil veins that are so often entirely closed up by the old process of sand pumping.

WITH THIS MACHINE and a practical engineer a well can be sunk from 400 to 600 feet within a period of from 15 to 20 days after the drill pipe has been driven. Arrangements are being made for the construction and delivery of three machines at New York, Norwich, Newburg, N. Y., and Pittsburg, Penn.

For further information, price, terms, etc., address **SIMON LELAND,** METROPOLITAN HOTEL, New York.
